EVERYTHING IS BEAUTIFUL

Essex Realty Management and **Richard Cohen Landscape** just won a landscape **beautification** award from the California Landscape Contractors Association. The property consists of **31** office/light industrial buildings on 12 acres. RCL and Essex completed an extensive replanting and upgrade program, tapping **low-water using** plants and irrigation systems. In addition, showy but low-growing **bougainvillea** (our spell-check didn't light up; guess Microsoft Word has a green thumb to go with that blue screen) and lantana highlight entries and other focal points.
